

Heavy Duty Universal Hub Puller

10903

**TIGER
TOOL**

Have What It Takes

Safety Warning

Read all instructions and safety warnings prior to operation. Failure to do so could result in equipment damage, personal injury or even death.

- **Stay Alert!** Watch what you are doing and use common sense when operating this tool.
- Inspect product for damage prior to using; do not use if product is in unsafe condition.
- Do not operate tool while under the influence of drugs, alcohol or medication.
- Always use safety equipment to prevent injuries. Approved face and eye protection must always be worn by the operator, as well as others in the work area.
- Do not overreach. Keep proper footing and balance at all times.
- Dress properly. Do not wear loose clothing or jewelry. Keep your hair, clothing and gloves away from moving parts.
- Keep hands clear of all pressurized hydraulic components.
- Always ensure hoses are free from sharp bends and kinks.
- Keep your work area clean and well lit.

Operating Instructions

- 1 Remove the nut that retains the hub and bearings to the axle.
- 2 Fully install the correct adapters onto opposing wheel studs on the hub.
- 3 Fully install the standoff screws, into the adapters, with the hex ends facing out.
- 4 Slide the crossbar over the two standoffs, and thread on the two handles.
- 5 Place the axle plug against the center of the axle, and thread the forcing screw through the crossbar until it contacts the center of the plug.
- 6 Advance the forcing screw until the hub breaks free.
