**TIGER  
TOOL**

Have What It Takes

## Safety Warning

**Read all instructions and safety warnings prior to operation. Failure to do so could result in equipment damage, personal injury or even death.**

- **Stay Alert!** Watch what you are doing and use common sense when operating this tool.
- Inspect product for damage prior to using; do not use if product is in unsafe condition.
- Do not operate tool while under the influence of drugs, alcohol or medication.
- Always use safety equipment to prevent injuries. Approved face and eye protection must always be worn by the operator, as well as others in the work area.
- Do not overreach. Keep proper footing and balance at all times.
- Dress properly. Do not wear loose clothing or jewelry. Keep your hair, clothing and gloves away from moving parts.
- Keep hands clear of all pressurized hydraulic components.
- Always ensure hoses are free from sharp bends and kinks.
- Keep your work area clean and well lit.

## Operating Instructions

Threads must remain clean and well lubricated at all times. Do not use over  $\frac{3}{8}$ " air ratchet—doing so will void warranty.

- 1 Back out the forcing screw.
- 2 Pull back the spring-loaded plunger and slip the tool over the slack adjuster rod pin.
- 3 Turn forcing screw by hand or with a  $\frac{3}{8}$ " air ratchet, the tool will shear the cotter pin.
- 4 Once the pin is free of the rod/clevis, back out the forcing screw and remove tool.
