

10" FLATSTOPPERS

RR-FS-10

NEW
DESIGN!

RR-FS-10, an additional size offered for Flatstoppers

MSRP
\$189.00

SPECIFICATIONS/BENEFITS

- Lighter - lightweight construction is easy to carry and maneuver
- Safer - won't slip, slide, or scoot on any surface and never scratches or marks your floors
- Stronger - 100% solid core construction
- Dimensions: 22" L x 10" W x 3.5" H
- Supports 1,500lbs per tire or up to a 6,000lb vehicle
- Weight: 2lbs each
- Keeps tires from flat spotting during long periods of storage
- Tires settle into the concave depression to prevent flat spots
- Never conducts heat or cold into your tires despite changing floor temperatures
- Fits tires up to 8" wide with a diameter up to 28"

Complete your storage, head to toe with these other great items

- Car Covers
- Car Capsules
- Battery Tenders

FlatStoppers were developed as a solution for people having problems with tires developing flat spots when a vehicle is parked for 30 days or longer. Once tires are set on FlatStoppers (on a level surface), they settle into the ramps concave depression, which helps support more of the tire. This disperses the weight of the car more evenly onto the tire, helping to prevent any flat spotting. The pads measure 22" long x 3.5" high x 10" wide, and will accommodate tires up to 8" wide. Provides a 2 inch car lift.

WHAT'S BEHIND OUR RAMPS?

★★★★ INCREDIBLY LIGHT ★★★★★

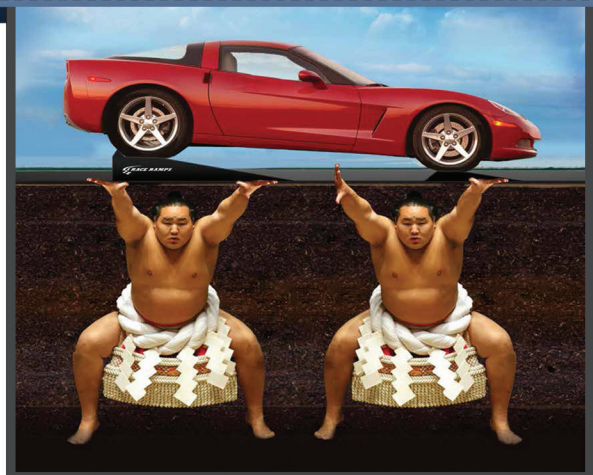

It's hard to believe that two 10 pound ramps can support 3,000 pounds with ease. But Race Ramps are designed with high density foam technology that provides a solid core. They're stronger than metal ramps and they won't break your back when you carry them.

★★★★ WON'T SLIDE ★★★★★

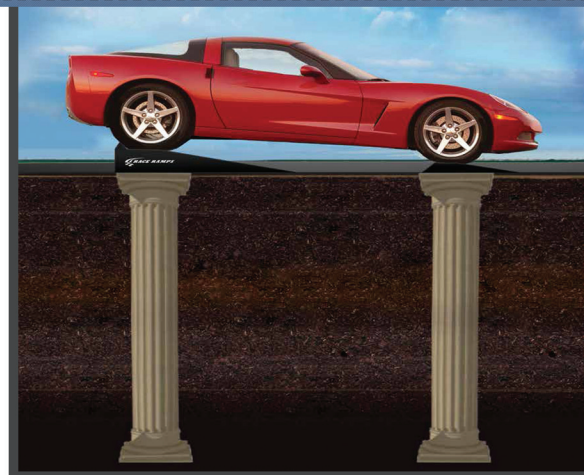

Race Ramps won't slip, slide or scoot across garage floors. Or Driveways. Or grass, dirt or asphalt. Why? Because their material and unique texture says so. It's why low-profile car owners love them. And why our competition hates them.

★★★★ RIDICULOUSLY STRONG ★★★★★

Race Ramps can support 3,000 pounds per set, while only weighing 10 to 15 pounds. Thanks to high density foam technology that provides a solid core, they won't wobble like car jacks or collapse like hollow plastic ramps. Just something to think about the next time you're working under your car.

★★★★ WON'T COLLAPSE ★★★★★

You can put your faith in wobbly car jacks. Or hollow plastic ramps. Or you can trust Race Ramps technology that's solid to the core. Our ramps won't slide, wobble or collapse. Which is comforting news to those who lie on their backs under their cars every weekend.
