

ZEPHYR SIGN STAND

PRODUCT INFORMATION

- 38 pound base is constructed with a steel plate molded into recycled rubber
- Quick and easy stand to set up: simply release lever and raise the mast, insert sign into latch bracket or universal sign holder
- Vertical mast folds down for easy and compact storage
- The weight and footprint of the rubber base prevents the stand from tipping or “walking” in windy conditions
- For roll up signs only. Ideal for city and utility applications
- NCHRP-350 approved with roll up signs
