Federal Signal is pleased to introduce the new ICON™ Tow Winch Light – a powerful, low-profile LED tow work light bar ideal for the bed of your flatbed tow truck. This work light provides exceptional illumination at 6,650 lumens using (24) LEDs in a combination of flood/spot reflectors. The ICON Tow Winch Light features an aluminum-extruded light head mounted to a powder-coated steel bracket to mount above the winch of your flatbed. It includes a two-pin automotive connector for easy installation.
